Portfolio

## CAREER OBJECTIVE

B.Sc. IT graduate (CGPA 9.77) with experience in data analysis, reporting, and dashboard development. Skilled in Python, SQL, Excel, and Power BI, with a strong interest in Data Science and transforming data into actionable business insights.

## EDUCATION

| Institution          | Qualification                             | Duration            | Location      |
|----------------------|-------------------------------------------|---------------------|---------------|
| R.K.T. School        | Secondary School Certificate (10th)       | May 2020 – May 2021 | Mumbai, India |
| R.K.T. College       | Higher Secondary Certificate (12th)       | May 2022 – May 2023 | Mumbai, India |
| University of Mumbai | B.Sc. Information Technology (CGPA: 9.77) | May 2023 – May 2026 | Mumbai, India |

## PROFESSIONAL EXPERIENCE

### Data Management Executive – SR Matrix Solutions

Mar 2025 – Apr 2026

- Managed and maintained large datasets using Microsoft Excel and Google Sheets, ensuring data accuracy and consistency.
- Performed data cleaning, validation, and preprocessing to improve data quality and reliability.
- Created reports, dashboards, and visualizations in Power BI to support business reporting and decision-making.
- Conducted data analysis and generated insights to assist operational and business processes.

### Jr Data Analyst – Rama Mining Tools Pvt Ltd

May 2026 – Current

- Analyzed business and operational data using Microsoft Excel, SQL, and Power BI to support data-driven decision-making.
- Performed data cleaning, transformation, and validation to ensure data accuracy and consistency across reports.
- Developed interactive dashboards and visualizations in Power BI to track key performance indicators (KPIs).
- Collaborated with cross-functional teams to gather requirements and improve reporting processes and data quality.

## PROJECTS

### Bhakti Sangrah: HTML, CSS, JavaScript, SEO, Google Search Console

Nov 2025

- Built and deployed a fully functional website from scratch, including domain purchase, hosting setup, and production deployment.
- Developed responsive user interfaces and optimized website performance and user experience.
- Implemented SEO best practices and monitored website performance using Google Search Console to improve search visibility.
- Configured and managed website indexing, sitemap submission, and search performance tracking using Google Search Console to enhance organic reach and visibility.

### Automated Investment Report System - Google Apps Script, Google Sheets, Gmail API

Feb 2026

- Developed an automated reporting system to generate personalized investment reports from Google Form responses, reducing manual effort by 80%.
- Developed an automated email workflow to deliver PDF reports with status tracking, ensuring accurate and duplicate-free communication.
- Implemented logging, monitoring, and error-handling mechanisms to improve reliability, scalability, and operational efficiency.
- Streamlined data processing workflows by automating report generation.

### Credit Card Financial Dashboard – Power BI, SQL, DAX

Mar 2026

- Developed an interactive financial analytics dashboard using Power BI to analyze customer demographics and credit card transaction data.
- Connected Power BI with a SQL database to extract and transform large customer and transaction datasets.
- Created advanced DAX measures and calculated columns to generate KPIs such as revenue, interest earned, and transaction trends.
- Performed data analysis and KPI tracking to identify revenue patterns, customer behaviour trends, and key business performance metrics.

## Retail Customer Analytics Project – Python, SQL, Power BI

May 2026

- Cleaned and preprocessed customer data using Python (Pandas), handling missing values and performing feature engineering.
- Analyzed customer datasets using SQL to identify trends, patterns, and key business insights.
- Developed interactive Power BI dashboards to monitor KPIs and visualize business performance metrics.
- Executed an end-to-end data analytics workflow, including data preparation, exploratory data analysis (EDA), visualization, and insight generation.

## SKILLS

---

**Programming Languages:** Python, SQL, JavaScript, HTML5, CSS3

**Databases & Frameworks:** MySQL, Django

**Data & Analytics:** Power BI, Microsoft Excel (Advanced Excel), Google Sheets, Pandas, NumPy, Data Cleaning, Data Analysis, Data Visualization, Dashboard Development

**AI & LLM Exposure:** AI Concepts, Prompt Engineering, LLM Awareness

**Tools & Platforms:** Git, GitHub, Jupyter Notebook, Anaconda, VS Code, Linux, Google Apps Script, Google Search Console

## LEARNINGS & ACHIEVEMENTS

---

- Led the development and maintenance of SR Matrix Solutions' digital presence through website enhancement, content management, and AI-assisted business solutions.
- Continuously expanding expertise in Data Analytics, Power BI, SQL, Python, and Data Science through hands-on projects and real-world applications.

## DECLARATION

---

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
